

Why Do I Feel So Itchy Today?

Description

Oh yeah, it's our 7th wedding anniversary!! Yay, we made it to 7 years, now we must push past into the 8 year mark and beat the 7 year itch. According to [Wikipedia](#) (it's on the internet, so it's gotta be true, right?), the 7 year itch is!

The seven-year itch is a [psychological](#) term that suggests that happiness in a relationship declines after around year seven of a [marriage](#).^[1] The phrase originated as a name for irritating and contagious skin complaints of a long duration.

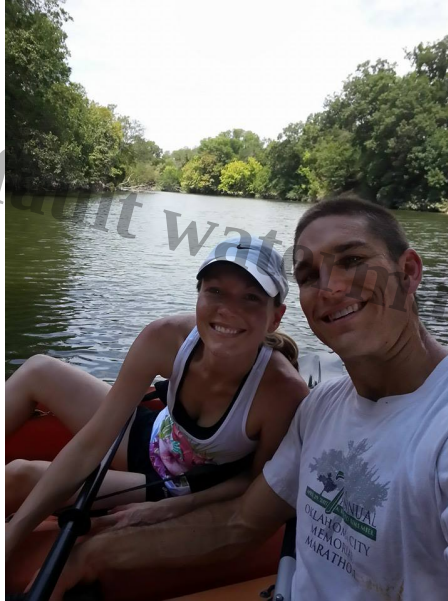

Happy Anniversary to my lovely, supportive, and beautiful wife, Kelley!

I love you so much dear, and hopefully we had a great weekend away at a hotel!

I don't know what I'd ever do without you, but thank you for your constant love and support no matter how mean I can be sometimes! I'll always be there for you and love that we are raising such a beautiful, healthy girl!

We've had a wonderful weekend thus far and an awesome marriage is a constant for us!

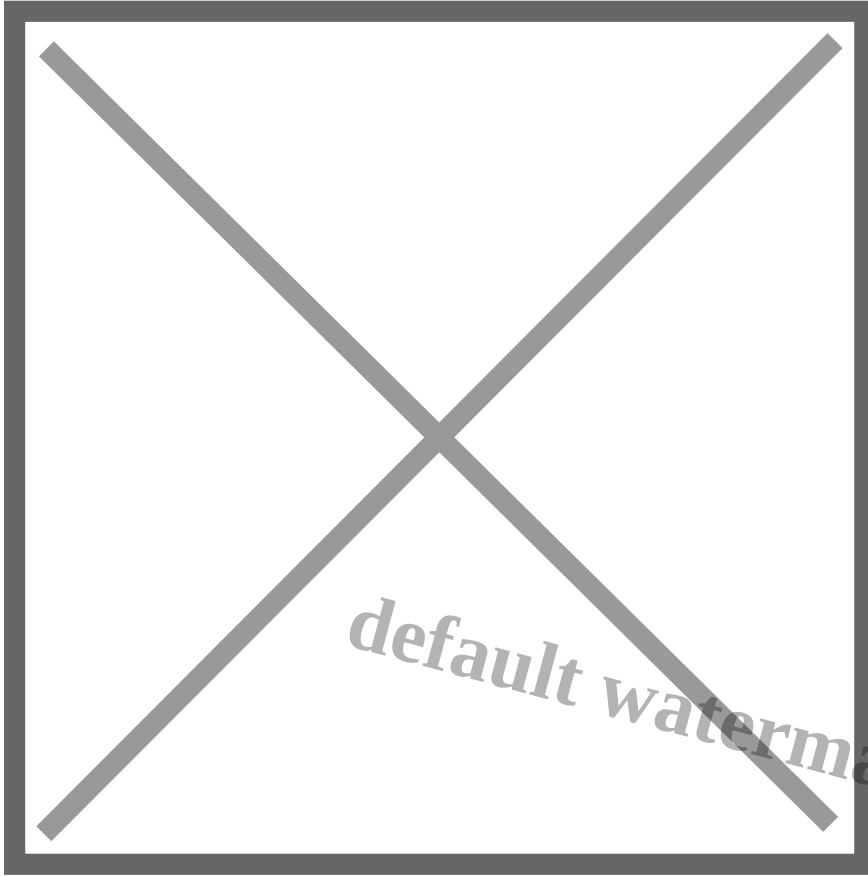

Pics from our weekend together!

G-Ma and Avery have been doing great together and we are excited to see them both today but sad to end our nice anniversary staycation.

Always Much Love!!
