

## Gazelle: The Best Way to Buy & Sell Used Smart Devices

### Description

#### What is Gazelle and Why Would I Use Their Services?

Gazelle is the nation's™ leading consumer electronics reCommerce site, providing an easy, fast and safe way for consumers to get cash for their used electronics or buy certified pre-owned devices. Gazelle pays you cash for your used gadgets when you're™ ready to get new ones – cash you can use towards a new certified pre-owned device on Gazelle.

In essence, Gazelle rewards people for approaching consumption in a smart, environmentally responsible way. Rather than discard a device you no longer value or use, Gazelle provides original owners with an opportunity to exchange it for cash and then put that cash towards a certified pre-owned device.

Since 2008, [Gazelle](#) has paid out more than \$200 million for unwanted technology and bought and resold more than 2 million devices, helping consumers upgrade to the latest technology. It truly is a win-win business.

[Gazelle](#) buys high-end, used consumer electronics, and sells it to those who otherwise couldn't afford buying new. It's called reCommerce, and Gazelle helped pioneer the category. Gazelle is recognized by an A+ Better Business Bureau rating and a 9.5/10 Reseller Ratings review average.

One of the most helpful features on Gazelle is their Orange Book. Kind of like Kelley Blue Book, but for smartphones. Before buying or selling your smartphone, check out their [Orange Book for a comprehensive guide to help predict the future trade-in value](#) of your smartphone before you even buy

one!

Visit [Gazelle](#) today, and see what your device is worth or buy a certified pre-owned device! For even greater deals, check out their [sale section](#) too!
