

Tips to make your pearl necklace as smooth as ever

Description

Are there any women in ancient and modern China who doesn't love pearl necklaces? Our "Princess of the People" Diana is a loyal proponent of pearl cheap custom necklaces ([shop it](#)). She can be said to found pearls from all over the world, each one has its own unique taste! The pearl necklace is beautiful, but do you know how to maintain it? If you do not pay attention to it, it may become less beautiful as usual.

Remember not to wash pearl necklaces with tap water. Because tap water can mostly contain hypochlorous acid used as a disinfectant to enter the small holes of the pearl, it is not only difficult to dry, it may also cause the inside of the hole to ferment, and the pearl line slowly turns green. In case you sweat when wearing a pearl name necklace cheap, you can carefully wipe it off with a moist towel when you take it off, and save it after air-drying.

Due to the tiny pores on the surface of the pearl, it is not advisable to let it suck in the dirt in the air. Such as hair gel, perfume and other substances. So don't wear pearl cheap custom necklaces >> [take it here](#)<< to haircut or to do housework or cooking in the kitchen for beauty. Oil fume and steam can penetrate pearls.

The worn pearl necklace should be wiped clean with sheepskin, and then put into the jewelry box. Do not use ordinary tissue paper to wipe, as this may cause wear and tear on the smooth pearl. Do not block the pearls in the safe for a long time, and do not seal them with tape. This will cause the pearls to yellow and fade. Because pearls need fresh air, remember to take them out every few months and breathe in the air.

Pearl cheap personalized necklaces are best re-strung every three years, changing a thread. The dirt in the pearl holes will cause friction, making the nylon thread fragile and easy to break. When stains appear on the pearls, you can use a soft velvet cloth to wipe glasses or camera lenses, or the lens paper cleaning agent generally uses mineral water, distilled water, anhydrous alcohol or hot water, and never use tap water.

Do not expose to the sun, get wet, and store it with sanitary balls and camphor. When not wearing a pearl infinity name necklace, store it in a dry box with a soft, clean flannel and store it in a safe place. Visit [Get Namenecklaces](#) today.
