

Oaza Cold Brew: Where Will it Take You?

Description

Translated from Czech, Polish and other Slavic dialects, [“Oaza”](#) means “oasis” in English. An oasis is an aspirational vision – a destination you are trying to get to even as you might be uncertain of its exact location or nature. Moreover, upon toiling and eventually arriving at your oasis goal, you might then and there realize that it was not what you expected or even truly wanted, which prompts you to regroup, recalibrate and set off undaunted and undeterred onto your new path in pursuit of the next glittering yet hazy [“Oaza”](#) that catches your eye far off on your horizon.

Oaza has become one of my favorite “ego to” morning drinks for a clean energy that helps me get things done. There are numerous positives about Oaza, but just as I told them, the only negative is that the drinks need to be bigger! But of course, that would be more caffeine than I ~~want~~ should have.

Your goals and your visions may more often than not be half-formed, in flux and/or a work in progress. Nevertheless, actualizing them requires that your plan, path and process be grounded, focused and systematic. Let’s face it: the world caters to **go-getters over mere goal-setters**, and achieving your vision requires focusing on your **path**. The roadmap you set and the journey you execute to get to your oasis is both inspired by and fueled by Oaza [Cold Brew](#) Coffee.

Oaza offers a line of premium ready-to-drink cold brew coffees that are healthy, hydrating, and packed with energy, consisting of 3 delicious flavors: Black, Oat Milk, and Cacao Mocha. Oaza is the first cold brew coffee on the market infused with electrolytes to aid in hydration, sustained energy and active lifestyle performance. Low-calorie and no sugar added with clean and simple all-natural ingredients, Oaza’s low-acidity pH yields smooth finish without ever compromising taste or refreshment.

- **Electrolytes:** To sustain energy and support hydration by offsetting caffeine’s diuretic effect.
- **L-Theanine:** For improved focus and mental performance.
- **Lean Ingredients:** Sugar-free with clean ingredients that are less than 30 calories.

- **Caffeine:** High energy with 200mg caffeine in all flavors.
- **Higher pH:** Less acidity vs. traditional coffees for easier digestion and smoother taste.

Average people drink coffee just to wake up and pull themselves together. Oaza is an innovative functional coffee formula that aims to do more than just wake you up – it propels you upward and forward through the grind of your daily path to achieve near-term goals you set for yourself, bringing you incremental steps closer to your long-term goals. Oaza is an elevated lifestyle beverage that caters to planners, path setters, and trailblazers. Clean, simple, and healthy for you, it is the optimal daily drink of choice for those who have opted in to a challenging yet rewarding daily journey towards personal success and growth.

[Oaza](#) embodies the marriage of envisioning with executing and the fusion of fashionable with functional. **Most coffee is about where it's from; Oaza is about where it can take you.**
