

I See Me! Personalized Children's Books Review & Giveaway

Description

“What book do you want to read tonight?”, Going Mom and I ask our daughter each night before she goes to sleep. She plays around singing out loud for 30+ minutes before finally giving in. “Goodnight Little Avery” has been her answer for several weeks now, even for naptime.

We have many books to choose from, but this one from I See Me! is different from the rest. [I See Me!](#) makes personalized children's books to bring your kid into their very own story of magic, wonder, adventure, and, in our case, sweet dreams.

Goodnight Little Avery is from I See Me!'s *Goodnight Little Me Storybook*, just one of 100+ personalized books just waiting to star your kid as the main character. We all love reading this book to Avery as every high quality page is filled with beautiful illustrations and words to amaze and delight those curious little eyes.

We even catch her reading it by herself sometimes. I think her infatuation with the moon is what really draws her into this book as itâ€™s on every page, just like her very own name. Iâ€™m sure the fact that the illustrations are created by Mary GrandPr , the illustrator of the Harry Potter series, helps a little too.

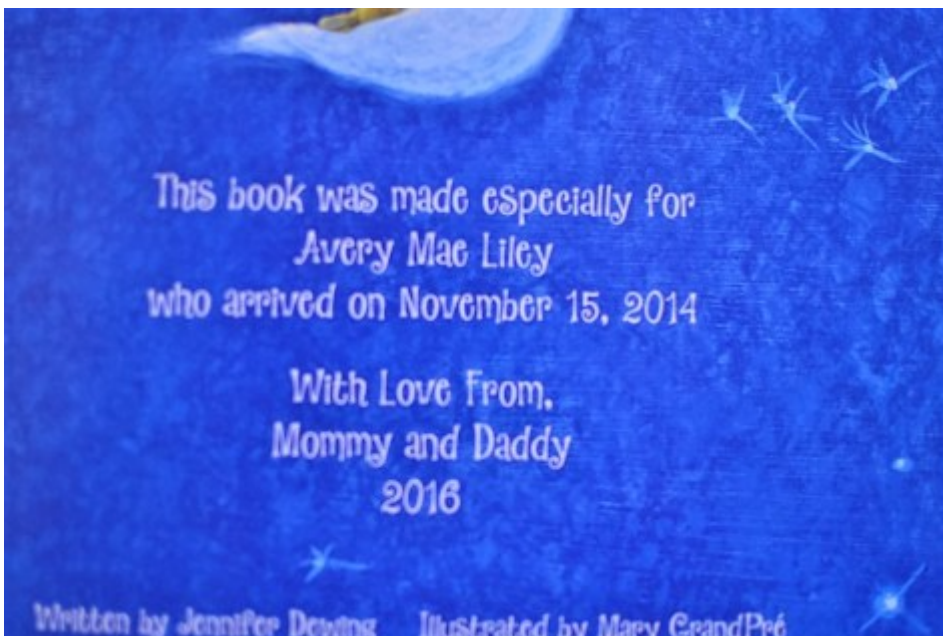

Personalized storybooks created by I See Me! help to encourage your little ones to read as they recognize letters and learn to spell their own names at same time. When children see their own name and picture (if you choose the option) this helps build self-esteem by making them feel special for having a book with them as the main character.

Want more options than a nighttime book? No problem. I See Me! has books with [themes like](#) animals, adventure, ballet, dinosaurs, fairies, farm, garden, love, outer space, pirates, princess, sports and things that go. You™re sure to find several books your kid will absolutely love, and you will too.

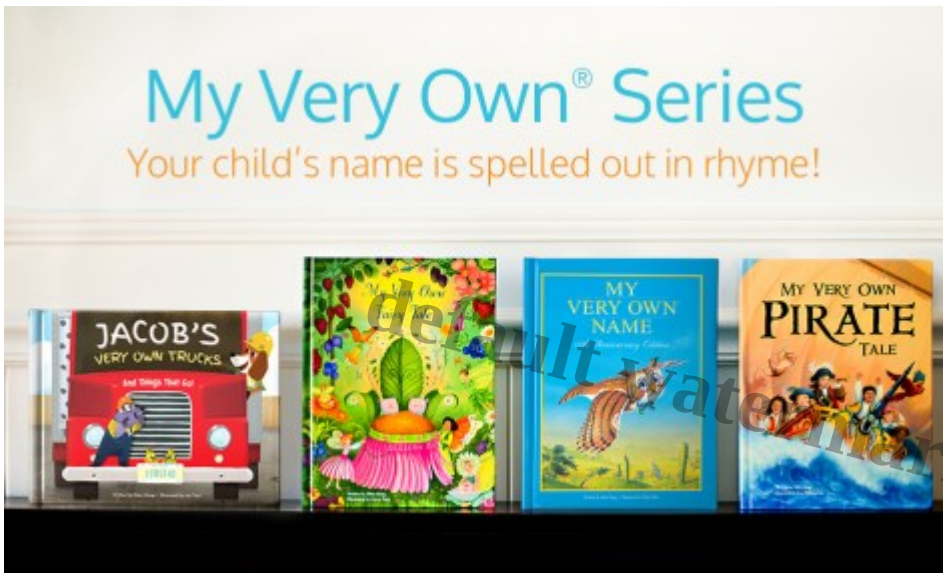

These books make the perfect option for gifts to celebrate birthdays, going to school, new baby sister/brother, Christmas, or just because they™re books and your kid will be reading. When ordering, you simply fill out info needed for I See Me! to put your child into their very own story like name, date of birth, gender, and you can even leave a dedication. Going Mom and I chose to dedicate it from Mommy and Daddy.

Pretty cool if you ask me. Just don™t ask me what year our daughter was born, because apparently I don™t know! She was born in 2013, not 2014 like I entered for her book. In the words of Homer Simpson.. Doh!

But no worries, I See Me! has a [100% satisfaction guarantee](#), and will replace a book at no charge if lost or stolen during shipping, or only charge 50% of original product price plus shipping if you need to change the personalization options. Which, as you can tell, I needed to do, and I See Me! delivered a new book with the right date!

Avery, my wife, and I are extremely impressed with the overall looks and quality of this wonderful book and we want to get more for Avery to read soon. Maybe this time I'll add the optional photo for Avery to see um, Avery in her very own adventure book!

You can even find personalized growth charts, lunch boxes, coloring books (how cool is that?!), stickers, and more on [I See Me!™s site](#). I strongly urge you to check out all they have to offer, and afterward, come back here to enter a giveaway to win a personalized storybook for that precious kid in your life.
