

Exploring the Casey™s Clubhouse Playground in Grapevine

Description

We have a few playgrounds around us in Roanoke, but when a friend told me about [Casey™s Clubhouse](#), I put it on my *Things To Do With Avery* list right away.

Located in Grapevine, TX, Casey™s Clubhouse is part of Dove Park which has a [waterpark](#) and [splash pad](#). All are free except for the waterpark. The playground is just a short drive from our home in Roanoke and pretty easy to get to.

Without telling her my plans, I loaded Avery up in my *Blue Rocket* aka Subaru Outback and “œblasted off” for the park. She could see the unique playground equipment as we parked and started calling out the familiar ones. We excitedly entered stopping only to pose with the turtle at the entrance.

Then it was off to play! With a cool tree house to explore, a zip line, several slides, swings (small, big, and gianormous), a rock climbing wall, and more, deciding on what to investigate first was challenging.

Since we were already challenged, it only made sense to attempt climbing a steeper-than-ever, rock wall.

With slight hesitation at first, then a short panic pause in the middle, Avery proudly escalated the wall all by herself in her [Soft Star Shoes](#). The first ascent was a bit slow, but each repeated attempt showed her gaining more confidence and speed. The big red slide on the other side was a great motivator too.

Sticking with the red theme, we ventured over to the gianormous swings. I tried it out first, and after a friendly mother took the time to try and get it over my big head, I decided itâ€™s not so gianormous

after all. But for Avery, it was huge, and she like itâ€™.kinda.

Zip lining seemed to be quite popular among the other kids on the playground, but after one zip down with Daddy, that was all Avery cared to do. Maybe weâ€™ll try again next time. To make up for me hanging on the cable with her, Avery gave me a ride on a boat. I asked if I could stand up while riding, but she shot me the â€œdonâ€™t you dareâ€• look.

I know that look from Going Mom and decided to keep seated in the interest of my safety. We played on various equipment that weâ€™ve never seen before and wrapped up our time by running around the

treehouse to see what there was to discover.

There were multiple levels with spiral staircase and ramp as choices to navigate the structure. This makes it a great choice for kids of all abilities to make use of the fun, adventurous equipment in Casey's Clubhouse, and I can attest that parents will love it too.

With many things to do on the playground to wear your kiddos out in hopes of a successful nap (something we're seeing much less of at home!), I recommend anyone in the area to stop by. It's nothing super extravagant, but it's clean, FREE, and big enough for a small crowd. We'll be sure to make it back soon!
