

Kore Essentials Trakline Express Belt: Upgrade Your Style

Description

I shared my [review of the Kore Essentials Trakline Belt](#) several months ago, and now theyâ€™ve introduced a new model; the [Express Buckle](#)!

Since my initial review, the Trakline is the only belt Iâ€™ve worn. From date night to family occasions, I never had to â€œwaistâ€• time with what belt to wear, the [Kore Essentials Trakline](#) was a no-brainer. And itâ€™s wife approved!

[kore essentials trakline express kick starter](#)

cough* Valentineâ€™s Day is coming. *cough

As a guy who despises having to wear anything that requires a belt, I find that this belt makes it easier for me to accept. And for good reason, it looks damn good and will last forever!

For Koreâ€™s new Express line, they are running a Kickstarter campaign to help get this belt out to the men that want/need a good belt. Even my good dad blogger buddy, [Gary \(aka Mr. Skipah\) is raving about Kore](#). He better make sure his style is upgraded now that heâ€™s [upgraded his living](#)

[arrangements!](#) ðŸ™‰

Joking aside, do Karl from Kore (that flows well, huh?) a huge favor and head on over to support their new Trakline Express making it to production. As a small business turning out high quality products, every little bit helps. Plus, you even get a reward when you give your support!

To help with further persuasion (if you even need it), I have my original review below. You can thank [Gary](#) for giving me the idea.

No belt holes, but itâ€™s *still* a belt?

This was my initial thought when I first heard of [Kore Essentials](#) and their [Trakline belts](#). They have zero holes, are made of 100% full grain leather, and can be adorned with several unique, fashionable buckles that are solid stainless steel or high-grade alloy.

I love being limited to how my belt fits based on the one-inched spaced holes it has and how ragged it looks after wearing it a while. Said no one, ever.

But this is the case for those primitive belts with holes. Thanks to Kore Essentials, thatâ€™s all changed. Their Trakline belts are not only appealing to the eye, theyâ€™re high quality pieces of wearable waist art that will last virtually forever!

Thereâ€™s a reason they are the #1 rated menâ€™s belt on according to customers on Amazon.com, and itâ€™s not because they smell pretty. Actually, the leather is quite pleasant. ðŸ™‰,

Hereâ€™s the 411 on why the Trakline Belt is better than those *other* belts, direct from the [Kore Essentials site](#):

FUNCTION

NO more belt holes to stretch out, wear out, or punch out yourself. Instead a hidden track sewn into the back of the belt and unique, patent-pending buckle create a precise fit every time you put it on. The track features 40+ sizing positions (1/4â€³ increments), making

Trakline belts 8X™s more adjustable than a traditional men's belt (5 one-inch holes). A discreet tab under the buckle allows you to easily adjust, or remove the belt fast. Honestly guys, it feels like the belt of the future.

FASHION

We've designed a limited collection of classically cool men's belt buckles for work, play and dress. At last, a mens belt that's smart, stylish, and simple to use. Makes a desirable gift for fathers, dads, grads, groomsmen and any guy looking to upgrade.

FORM

Our men's belts are constructed of premium Full-Grain Leather (the best grade of leather). Full-grain leather improves with age, conforming to your actual waist shape. The stainless steel buckles are handformed, 16 gauge, solid stainless steel and the alloy buckles are a high-grade zinc. We built our belts "to last."

SIZING

Trakline belts fit any waist size from 24" up to 44" (XL sizes to 54"). Try on the belt, then trim off the excess leather (using household scissors) to attain your optimal size range. Then the 10" track creates a precise fit as your waist fluctuates in and out every day.

GUARANTEE

If you don't completely love your Trakline belt, just send it back within thirty days for a full refund. And of course all our products come with a one-year, warranty against defects and breakage, to keep you happy.

MISSION

We set out to redefine those basic, essentials items you use each day. Our approach is pure >> blend innovation with superior materials to create unique, more exciting products that exceed expectations

Annnnd, if that weren't enough, it [doubles as a bottle opener](#)! Sold. Where were they when I had a [date night with my wife and spent forever trying to open our beer](#) with my crappy, worn out belt with holes?

No funny thoughtsâ€™!..

Yes, we were in the car, no, nothing like *that*. We ate and drank before in the parking lot before going inside to see the Imagine Dragons in concert. It was a great time, but couldâ€™ve been better if I had a better belt like the Trakline.

Thanks to the wonderful Karl and all of the Kore Essentials team, I am now the proud owner of their [black genuine leather belt with stainless steel Evolve Buckle](#) they sent me to review.

It comes with a handy [belt hanger](#) (that plastic thing that looks like a giant two-prong fuse), that allows you to easily hang your prized pants-holder-upper right next to your pants!

The included instructions on how to measure and trim the belt to your appropriate size confused me at first, but then I realized it was just the userâ€™.me! Essential-y (see what I did there?), if you have a good idea of your pant waist size, you can go with that number and trim off the excess leather thatâ€™s conveniently marked.

Then just clamp the buckle receptacle in place and you™re good to go. Being the goof that I am, I failed to take a picture of the full process, but lucky for you (and me), Kore Essentials has a [handy dandy video](#) to watch if needed.

After trimming off your excess leather, do NOT throw it away! It™s a little known fact that things not intended to be toddler toys, are in fact, perfect toddler toys!

Avery loved running around with this quality leather strap and completely ignored her actual toys for a full day! Even Going Mom was impressed.

I made use of my fancy new belt for a date night with Kelley last weekend and simply loved how perfect it fit around my waist. No in between holes where itâ€™s too tight or too loose, it was just right. Hence the boyish smile I had when posting my attire on Instagram.

[View this post on Instagram](#)

The shirt was tucked in to give a good view of the belt, but I quickly had to un-tuck after the picture was taken. We never had to open a beer bottle that day, but it was nice knowing I could if I needed to!

One of the great things about the belt is how easy and fast it is to adjust. After gulping a liter of water, I needed to loosen up a little, and with the Trakline, I could even do it on the "œfly". Bam, I™m on fire!

I love having a belt I can count on and quickly get on and off, and this belt allows just that. Plus it looks good, will last me a long time, and it looks good. Wait, did I already say that?

This would make a perfect gift for the upcoming Father™s Day holiday, or as a "œjust cuz" gift to the man in your life. Head over to the [Kore Essentials site](#) and pick one or a few belts and use code **SAVE15** to save 15% off your order.
