6 Bedtime Books Your Kid Will Love

Description

As a bonus, parents will love these bedtime books too. When it comes to books, itâ€™s absolutely paramount for the parent to enjoy the book as well. Otherwise, we might not put enough into the story and therefore shortchange those eager little ears.

How we tell a story can be the difference from hearing *a story*, to hearing **A STORY**!!! Putting emphasis into the words of each character, changing the tone of your voice depending on the situation, and getting your kids involved by saying certain lines or finding something on each page.

You get the point, find something you like to read, and everyone will enjoy the book so much better. That is, until youâ€™ve read it for the 87th time, and you *will* read it 87+ times! Here are 6 bedtime books I think youâ€™ll enjoy reading just as much as theyâ€™ll enjoy hearing over and over again.

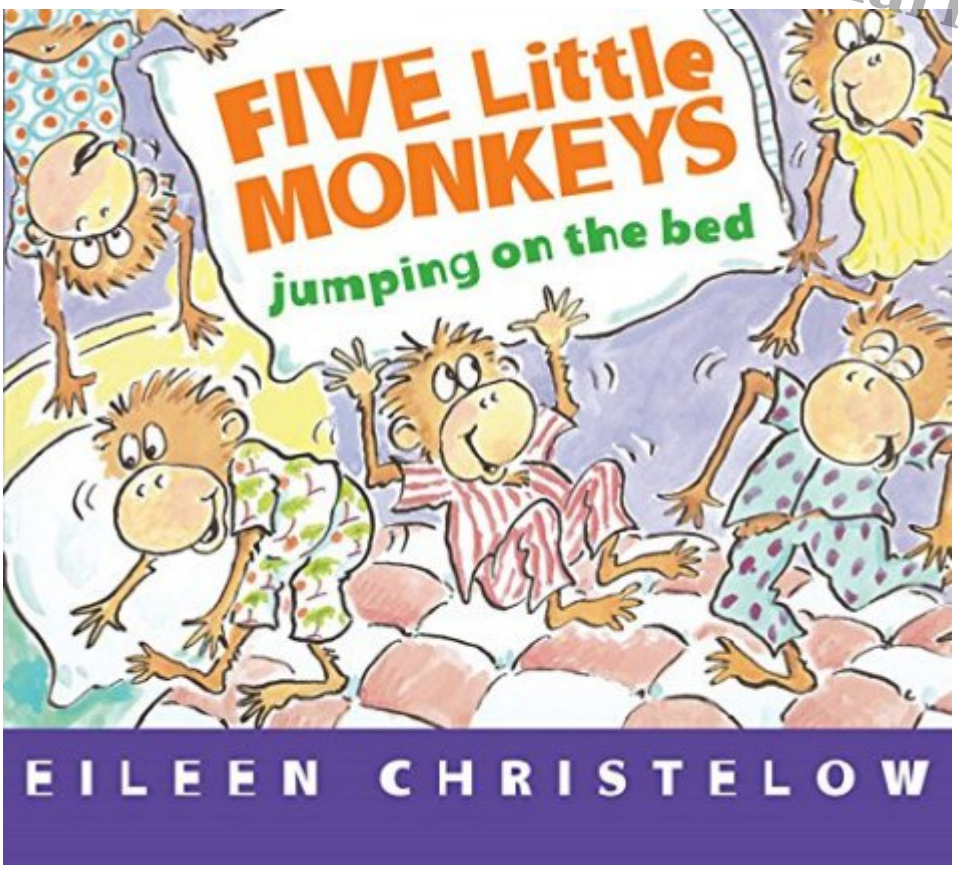
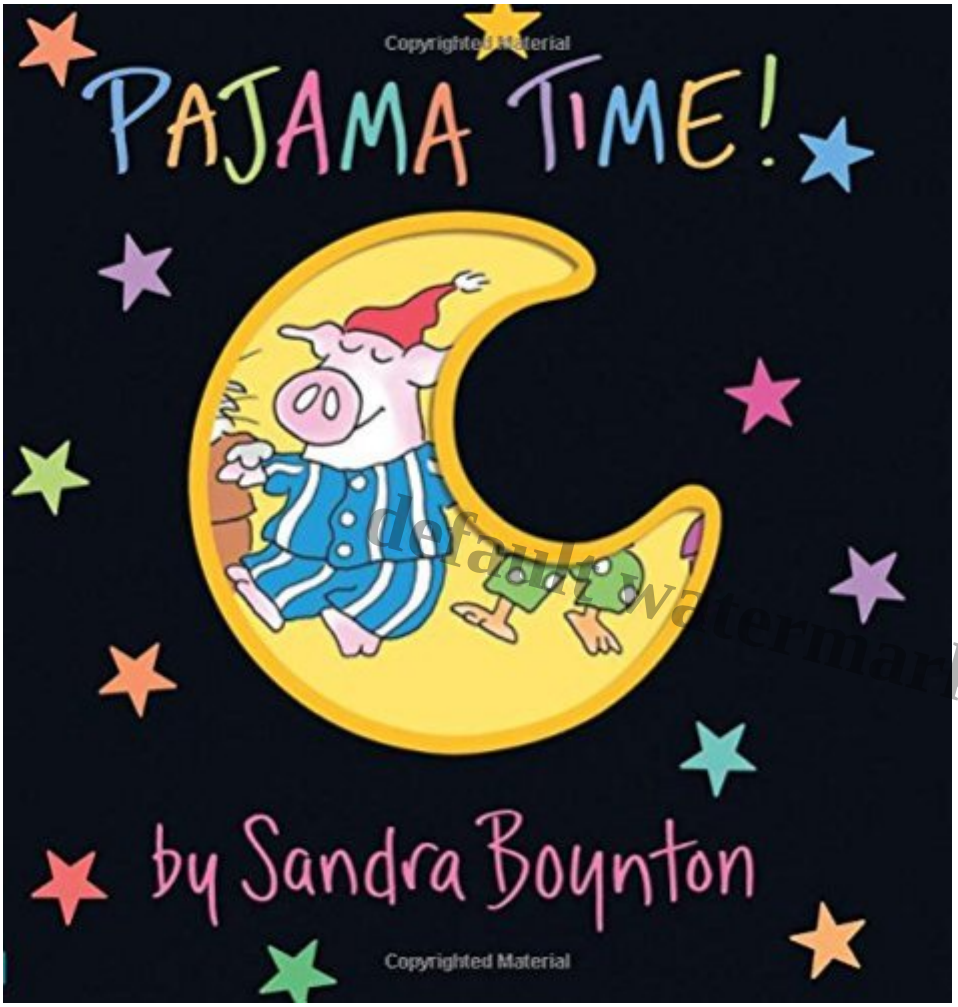
1. Five Little Monkeys Jumping on the Bed



Most of us should remember this story from our own childhood, so why not share it with the next generation? Avery loves the crazy monkeys, and it makes for a good way to explain why she shouldnâ€™t jump on theâ€¦..well, she jumps on everything.

2. Pajama Time!



We love all of Sandra Boyntonâ€™s books, so itâ€™s only right to include this one. Our whole family cites the words from this book throughout the day, itâ€™s definitely fun and catchy. Another favorite is The Going To Bed Book, our favorite page is when the exercise on top of the boat deck.

3. The Little Mouse, the Red Ripe Strawberry, and the Big Hungry Bear

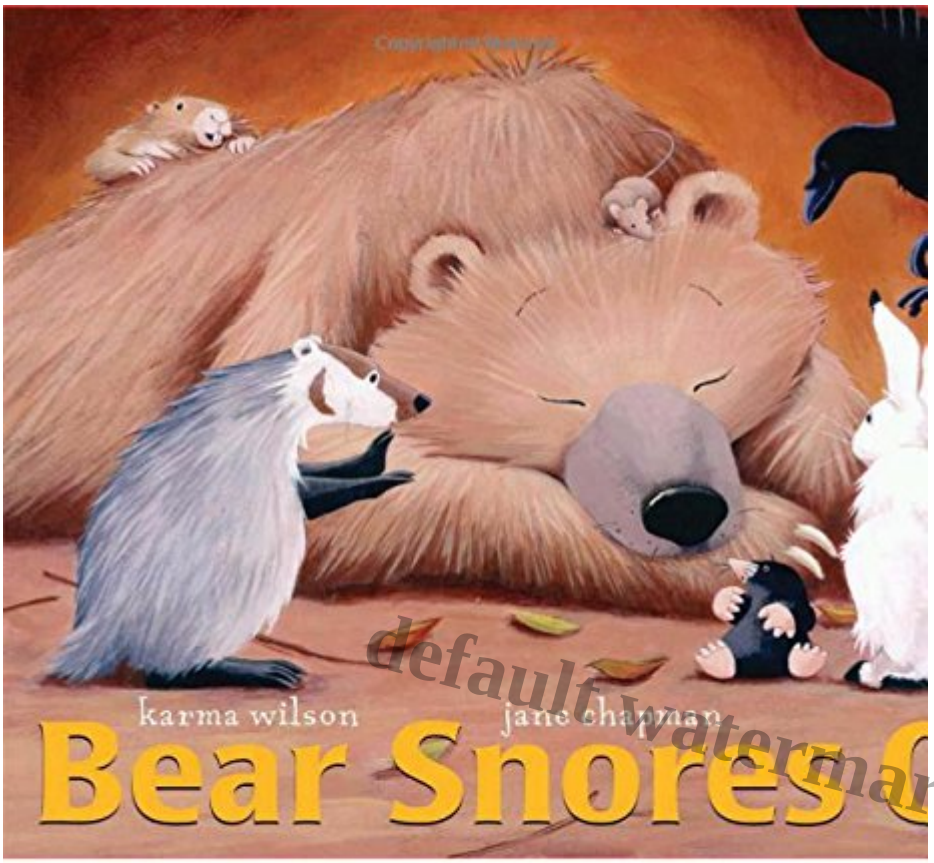
I grew up with my mom (g-ma) reading this to me all the time. Then, as I grew older, I read it all the time. Such a fun story and kids will love seeing the ways the little mouse tries to keep his cherished strawberry away from that hungry bear.

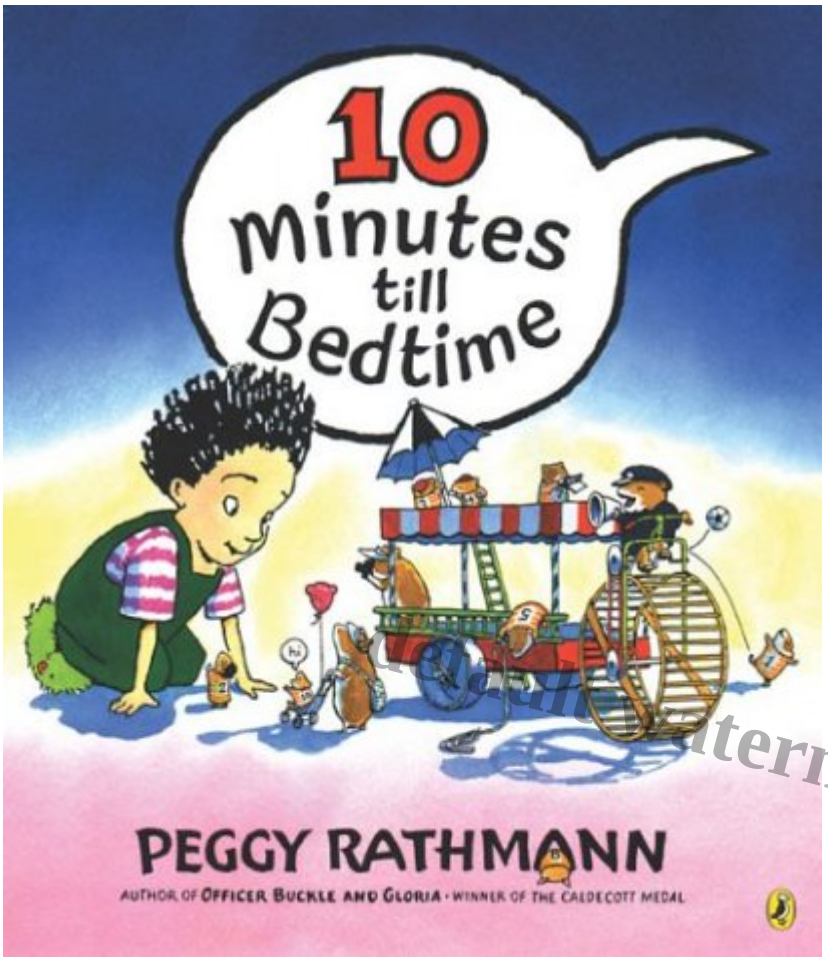
4. Bear Snores On



Copyrighted Material

Nana gave this to Avery before she was one and weâ€™ve grown to love this book so much. I even made a YouTube video of my wife and I reading it to Avery. Yes, I act it out.

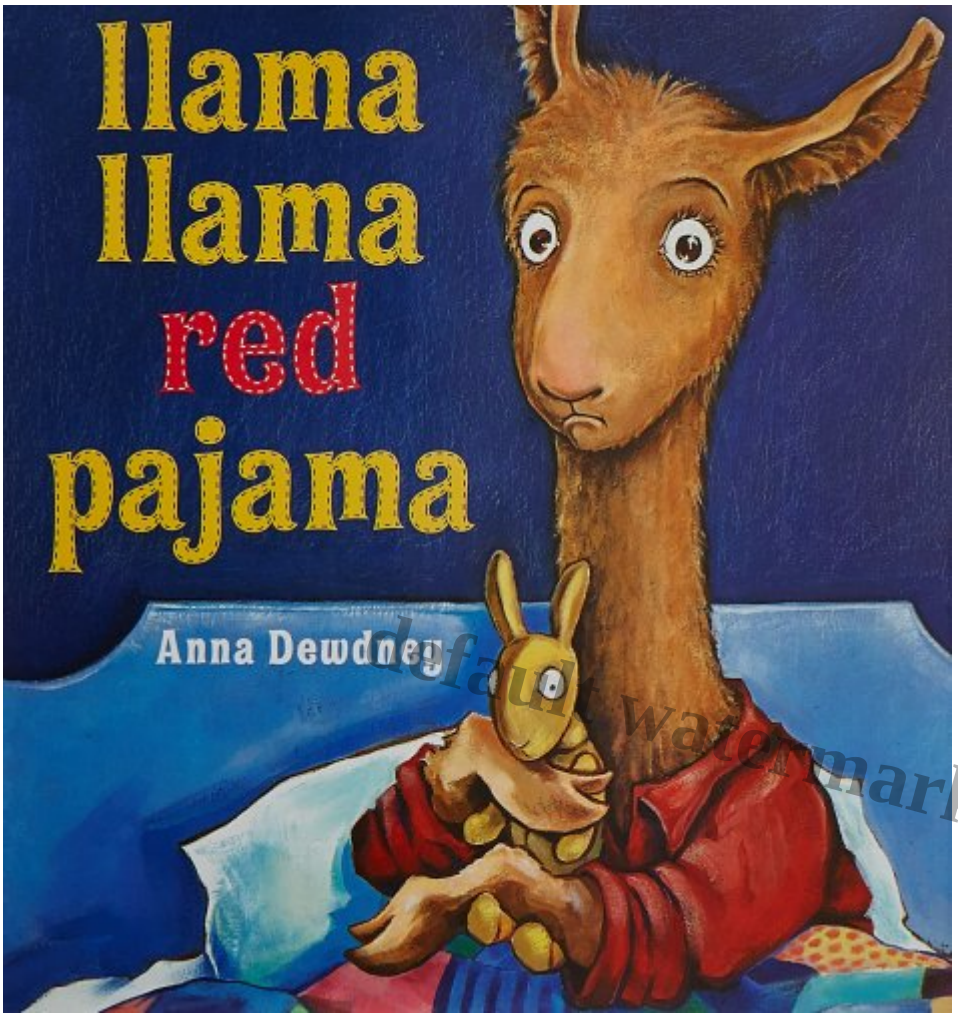
5. 10 Minutes till Bedtime



Watermark

Weâ€™ve owned this book for a while, but only recently has our toddler shown interest. Now that sheâ€™s counting and â€œreadingâ€• herself, we sit and try to find the hamsters (thereâ€™s 10 with numbers on each page) together. Itâ€™s a longer book and is fun to read during the day too.

6. Llama Llama Red Pajama



This is a fun rhyming book and itâ€™s the most recent in our collection thanks to G-Ma. Ours came with a cute baby llama plush that Avery has added to her 6 other animals that go to bed with her. She loves the story, and thereâ€™s a great message about being patient in there. Maybe sheâ€™ll catch on soonâ€¦..

Going Mom and I switch off on who reads and who holds our precious Toddler for bedtime, and Iâ€™m sure these 6 bedtime books have been read well over 87 times. And itâ€™s not all at night or nap time, no, a really good bedtime book is good any time of day!

Hope one or all of these books find their way into your home for you and your little ones to enjoy as much as our family.
