

## 10 Dad Worthy Puns on Pinterest

### Description

Anyone who follows me on [Twitter](#) or my personal page on Facebook has probably seen me post plenty of puns. Some good, some so-so, and some that even make me cringe as I press the *post* button. You might find a good mix of all of these in the 10 I have to share with you today, but I count just one smile a win. Plus, it's the weekend, so hopefully you're smiling already!

I know what you™re thinking, “His poor wife and daughter.” I™ve had plenty of crinkle-faced reactions from Going Mom, but that never stops me. Dads, don™t let it stop you either!

Hope everyone reading found at least one they liked or hated less than the others. If you happened to laugh at more than one, chances are you™d like this cool board game I found called [Punderdome: A Card Game for Pun Lovers](#). If you™re a pun lover, obviously you™ll love this game, it even says so in the name!

If you had to pick just one of these to share, which one would it be?
