

Iâ€™m a Soft Star Shoes Ambassador!!

Description

First thereâ€™s [NuttZo](#), the most delicious and healthy organic nut/seed butter EVER, and now Iâ€™m proud to announce Iâ€™m an ambassador for [Soft Star Shoes](#)!

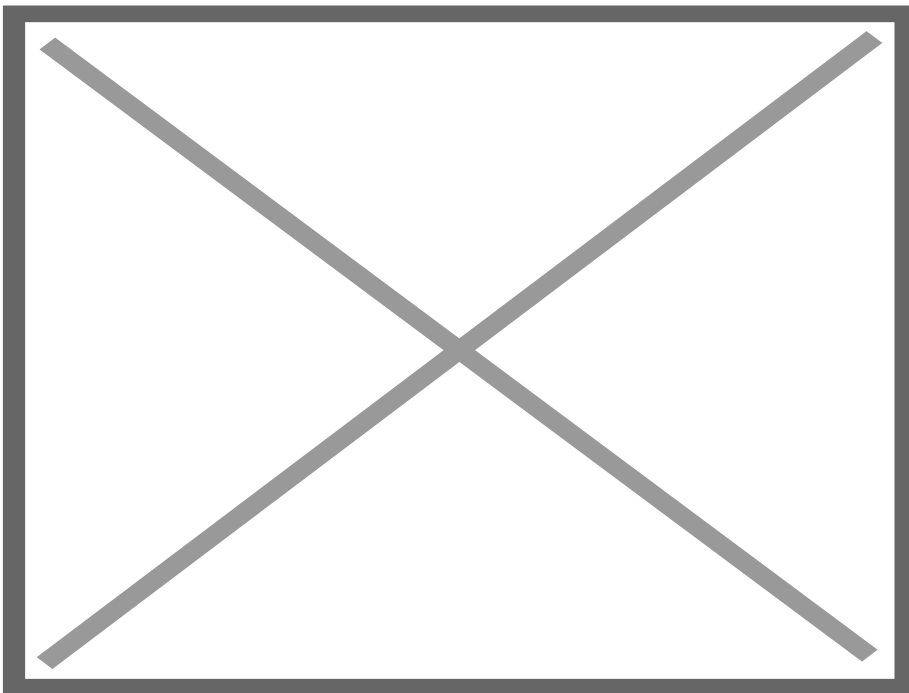

Soft Star Shoes is a company based out of Oregon where they passionately make minimal footwear for the entire family. Handcrafted to order, they offer minimalist Running shoes, Moccasins, Sandals, Padraig Slippers, Sheepskin boots, and other Casual Wear.

I just started using their [Running Moccasins](#) they sent me to try and will post a review here in the near future.

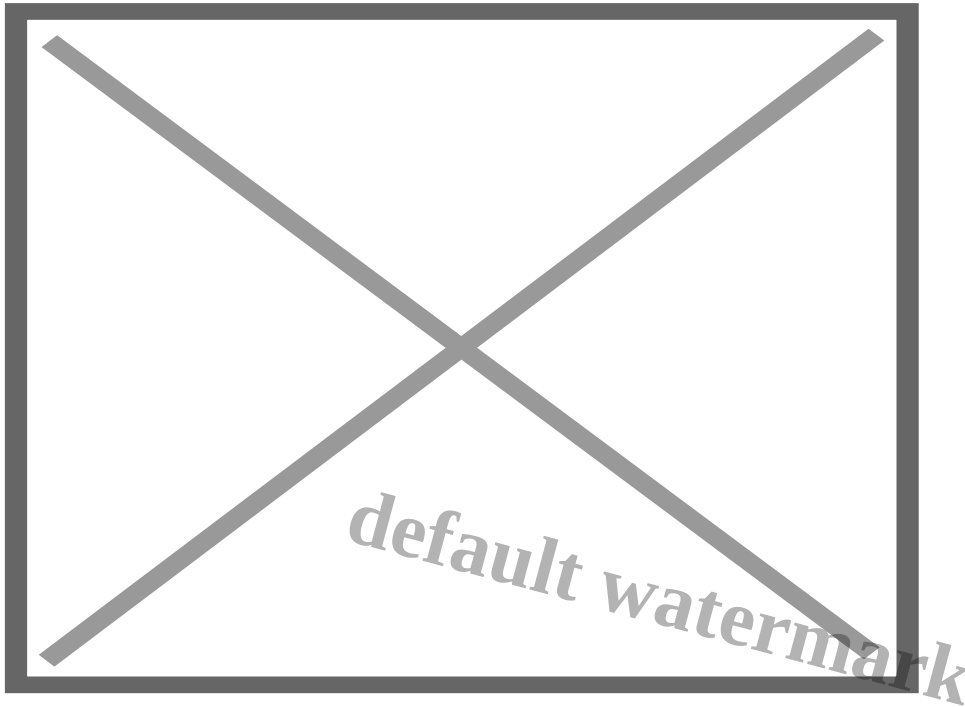

Looking forward to logging some miles, HIIT exercises, and weightlifting sessions in these 5oz foot-huggers. The freedom of sprinting practically barefoot is here! But I really can't wait to get a pair of Kids' shoes for Avery. They have shoes for babies, toddlers, and youth up to 12 years!

As if handmade in the USA by people (they actually [call them elves](#)) actually passionate about what they do isn't enough, you can go online and [design your own shoes](#) for yourself and your little ones. I'm ready to get our whole family going minimal in Soft Star Shoes for casual daily use as well as when working out.

I'm no stranger to working out in minimal shoes as that's all I've used for years now, but I've never tried anything like Soft Star Shoes yet. [Check out their site](#) and see what you would

like for yourself. Have fun with the [design-your-own feature](#) to see what you can create for the kiddos. A monogrammed moccasin for your tyke? How could you resist?!

Kids and adults donâ€™t need the excessive padding seen on most running and casual shoes. Itâ€™s not natural and only messes with our dynamics. Get yourself and your family closer to the earth and feel the benefits of having â€œHappy, Healthy Feetâ€•.

More to come on Soft Star Shoes, I promise. For now, enjoy your weekend and [check out all they have to offer.](#)
