

IllumiBowl Toilet Night Light: The Future of Peeing

Description

I was provided an [IllumiBowl Toilet Night Light](#) free of charge in exchange for my honest review. I was not compensated in any other way and all thoughts are my own. This post does contain affiliate links in which I will earn a few cents if you make a purchase by clicking on one.

There are some crazy contraptions and ideas displayed on the show Shark Tank, and at first glance, I wouldâ€™ve placed the IllumiBowl in that category. But, after Matt, the creator kindly sent one for me to try, my ~~mind was blown~~ toilet bowl stayed clean!

Guys, if you live with females, this tiny light just might prevent future toilet spray related arguments FOREVER! Not that I know anything about those kind of fightsâ€™!..

The IllumiBowl easily fits on any toilet using a suction cup and adjustable arm.

FITS ANY TOILET

Then you can set it to one of 9 color options or have it cycle through all of the colors. Who wouldn't want to have a disco pee session in the middle of the night?

While the color selection is nice, I prefer to only use the orange or red light so as to not disrupt my sleep. Thanks to my good friend, [Shawn Stevenson, author of the book *Sleep Smarter*](#), I know all about the negative effects of blue light at night and how it can ruin a wonderful sleep!

Which is why this isn't just to keep guys from "shooting blindly" at night. Anyone will benefit from having a night light that doesn't emit blue light if so chosen, and I'm sure ladies will enjoy having a well-lit toilet to go to at night. Let's not forget about our little ones too, whether potty training or just in need of a bathroom night light, the IllumiBowl benefits the entire family and guests.

If you could use a practical and fun way to light up your nighttime bathroom trips, look no further than the IllumiBowl. For just **\$19.99**, you can save yourself from tinkle sprinkle arguments (sorry, wife) and even give kids the confidence to make trips to the restroom alone at night.

The key features of this hand light are:

- Fits on any toilet
- Automatically turns on and off via motion sensors
- 9 single color modes or the option to cycle all colors
- Easy to clean with just a damp cloth
- Peeing is fun for everyone!

Pick one or more up for yourself and friends on [Amazon](#) or find it at your local Bed, Bath, and Beyond. To keep up to date on special offers and parenting/bathroom related tips, follow IllumiBowl on [Facebook](#), [Twitter](#), and [Instagram](#).

And now, I'll leave you with their funny, but informative video on [YouTube](#). Enjoy!
